

Agriculture Power Instructor - Spring 2017 Pratt, Kansas

Full-time, nine-month faculty position starting August 2017.

Full-time, nine-month faculty position starting Spring 2017. Review of applications will begin immediately. Position is open until filled.

Pratt Community College's Agriculture Power Program is strategically focused on enhancing and improving the quality of life within the region. We seek an innovative—mission driven—AG Power instructor who is experienced with all aspects of farm machinery repair including but not limited to tractors, combines, swathers, balers, spray rigs, and tillage equipment.

Teaching requirements include engine overhaul; repairing hydraulic & hydrostat systems & transmissions; HVAC systems operation; and basic service of multiline equipment. Course loads include lectures, laboratories, & internships related activities.

Ideal candidates will be business savvy, have extended mechanical experience, proven leadership qualities, & the ability to foster new and sustain current industry partnerships. Applicants must have a minimum of 4000 hours of agriculture repair work experience and/or other closely related mechanical agricultural repair field. Two year associate of science degree, or bachelor degree preferred. For information about the Program please visit <http://prattcc.edu/department/agriculture-power-technology>.

Application Required Documents: PCC Employment Application, resumé, cover letter and list of references – name, title, email, and current phone numbers. To apply, please visit www.prattcc.edu to submit the required documents. If you have any questions, please contact the Director of Personnel at 620.672.5641 ext. 139
