

SUNY Cobleskill Cobleskill, New York

Assistant Professor in Animal Science

The Animal Science program at SUNY Cobleskill is seeking an Assistant Professor of Animal Science with a proven commitment to excellence in the classroom.

The successful candidate is expected to teach and develop courses in entry level and advanced animal nutrition related to dairy cattle, beef cattle, swine, sheep, dairy goats and meat goats. Knowledge and experience in companion animals and equine is preferred, but not required.

Applicant must have knowledge of current animal nutrition models and software systems, including ration balancing and formulation and forage analyses. Teaching and development of coursework in other areas of animal science is expected dependent on the knowledge and experience of the candidate.

Please refer to the following website for more details.
