

Horticultural Science

Position: Senior Lecturer

Position Number: 00100034

Salary: Commensurate with experience

Location: Raleigh, NC

Position Description: Provide innovative pedagogy and expertise in teaching, advising, and mentoring students and leadership for the Associates degree in Horticultural Science Management. This individual will teach 5-7 courses (21 credit hours) per year, 12 months for either associates degree or undergraduate bachelor's degree students utilizing both face-to-face and distance education platforms and technologies. Courses this individual will be expected to teach may include, but is not limited to, Fruit and Vegetable Production, Weeds and Diseases of Ornamentals, Landscape Maintenance, Landscape Construction, and Home Horticulture but may also include courses in the areas of Introduction to Horticulture, Career Preparedness and Development, or others depending on the individual's expertise and the department's needs. This individual will serve as the department's Coordinator for the Agricultural Institute Associates in Horticultural Science Management, as well as co-advise the Horticulture Competition Team. Additionally, this individual will participate in departmental or university committees and programs including recruiting events and fundraising.

NC State is diverse because it is a community of individuals from varied backgrounds and demographic categories; it encourages, accepts, and values a diversity of people and ideas; it seeks to promote an environment where equity, respect, and understanding represent the norm in the campus climate; and, it seeks to prepare entrepreneurs who are effective citizens of a global community.

NC State University is especially interested in qualified candidates who can contribute, through their experience, research, teaching, and/or service, to the diversity and excellence of the academic community.

Requirements: Master's degree in Horticulture, Agriculture Education, or a related field of study with at least seven years of teaching experience. Extensive experience in teaching (which can be demonstrated by course evaluations, student comments, and demonstrations of curricular content developed) Experience in and knowledge of the production, cultivation, and identification of ornamental plants is a plus Excellent interpersonal, collaboration, and communication skills Curriculum and course development, assessment, distance education technologies, and recruiting.
