

The Director of the Sustainable Livestock Systems Collaborative (SLSC) is a full-time, twelve-month faculty position for a person with a proven track record of leadership of diverse teams, industry partnerships, academic collegiality, and research/teaching credibility. This newly-created position will be responsible for developing the nascent Sustainable Livestock Systems Collaborative at CSU into an internationally recognized program. The position will have dual reporting lines to the Dean of College of Veterinary Medicine and Biomedical Sciences (CVMBBS) and the Dean of College of Agricultural Sciences (CAS). We seek an established leader with working knowledge of Sustainable Livestock Systems who is committed to collaboration, networking and team building. Key to this endeavor are partnerships with nongovernmental stakeholders, including industry/producer groups, as key constituents in this endeavor. To view full posting and apply online visit: <http://jobs.colostate.edu/postings/74178> by February 15, 2020 for full consideration. CSU is an EO/EA/AA employer and conducts background checks on all final candidates.
